Start date of the loan	01-11-2015
Interest rate type	Fix

*Reference values at the date of issuance.. Valor U.F. = $27.892,17

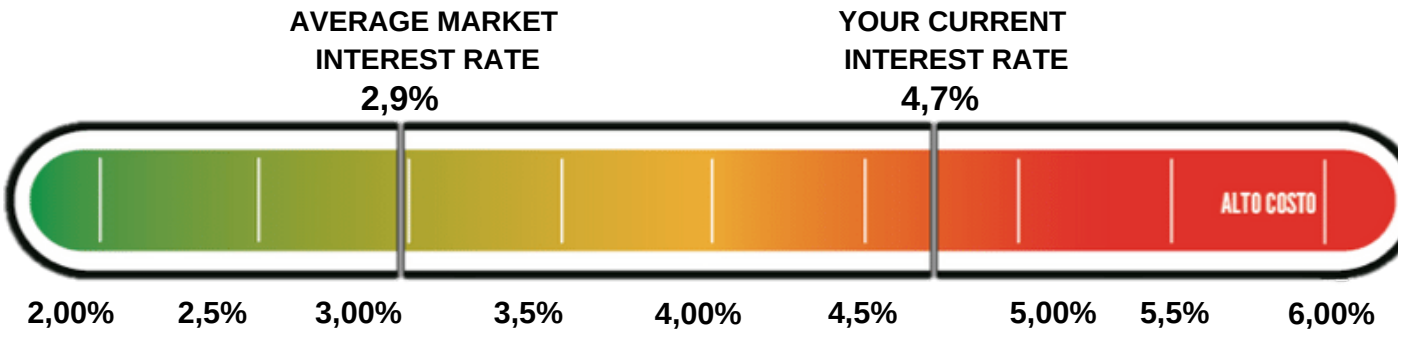
To learn more about your options in the mortgage market, enter the following **URL** in your browser.

INFORMATION ON MORTGAGE REFINANCING

Did you know you can refinance your debt and potentially reduce your monthly payment? Changes to the terms of your loan can be negotiated with your financial institution or another financial institution in the market. You could get a lower interest rate and pay less each month this way.

INFORMATION ON MORTGAGE MARKET CONDITIONS

The chart below compares your interest rate to similar loans granted in December 2020, describing the current market conditions should you attempt to refinance your mortgage loan.*



The average market interest rate for mortgages similar to yours is [MARKET RATE], while your interest rate is [CURRENT RATE]. If you refinanced your mortgage loan and were able to obtain the average market rate while keeping the current contract term, you would save:

ANNUAL SAVINGS ..... $XXX.XXX
TOTAL SAVINGS ..... $YYY.YYY**

When you search for refinancing options, you may receive offers with even lower interest rates, increasing your savings.

*The market's average interest rate is calculated by taking into account credits of a similar size and duration to yours, which were granted in December 2020 to individuals with comparable incomes who live in your community. Because market conditions can change, it is possible that you will receive a lower or higher offer at the time of purchase.

**Total savings do not include the operational costs of refinancing or carrying your loan. Please inquire directly with your bank for the corresponding value.

INFORMATION TO COMPARE YOUR MORTGAGE CONDITIONS

To compare different mortgage offers, it is necessary to first understand what factors affect the total credit total cost and how to aggregate the various components of that cost. You can review the components of your current mortgage in this chart.

AMOUNT OWED		CREDIT COSTS		TCC (TOTAL COST OF CREDIT)
$23.784.810	+	**$15.716.778**	=	**$39.501.598**
The outstanding loan amount		The sum of: Interests..... $14.742.997 Insurance ..... $1.973.781 Comissions $0		The amount paid at the end of your mortgage
		The current EAC is a measure that reflects the cost of credit and can be used to compare it to other options.	=	***5,04%*** Current EAC (current equivalent annual cost)

A lower **TCC** or **EAC is a savings for you** if you keep the same amount, term, and mortgage characteristics

STEP-BY-STEP TO SEARCH AND COMPARE MORTGAGE OFFERS

Here is the a of steps you can follow if you want to try to refinance your mortgage loan.

- [x] **R**ead this report carefully.
- [ ] **S**imulate a credit offer for a loan of $24,156,397* in **URL MOCKUP/SIMULATOR**. Specify your credit type, rate and term. To simulate with as many financial institutions as possible, click on the "All" option.
- [ ] **I**dentify the 3 options with the lowest EAC (Equivalent Annual Cost) or lowest monthly payment.
- [ ] **Q**uote at least three financial institutions that have the most attractive offers in the simulations, one of which could be your own. You can obtain a quote by visiting the branch of the financial institution.
- [ ] **E**ach institution will decide whether to make you a refinancing offer after evaluating your background. Compare these offers based on total cost (TCC) and equivalent annual cost (EAC).
- [ ] **A**ccept the offer with the best conditions (lower TCC or lower EAC).

*This amount is the sum of the Amount Owed and the Prepayment Fee that your financial institution may charge in accordance with Law No. 18,010. Prepayment Charge: $371.587

INFORMATION ON FINANCIAL PORTABILITY

Applying to refinance your mortgage loan at another financial institution is now easier, using the Financial Portability Law. Here we explain how it works.

STEP-BY-STEP TO APPLY FOR YOUR MORTGAGE LOAN

- [ ] **C**hoose the new financial institution to where you wish to port your mortgage loan. Contact them via their website or an executive and ask for a "Financial Portability Application".
- [ ] **T**he new financial institution will ask your current institution for a certificate of liquidation of your mortgage loan. The new financial institution may also request additional documents from you.
- [ ] **T**he new financial institution will review the settlement of your mortgage loan and will evaluate whether or not to issue you a portability offer. If the offer is issued, it will be valid for at least 7 banking days.
- [ ] **I**f you accept the portability offer, the new financial institution will transfer the mortgage loan, including any collateral associated with the mortgage loan.
- [ ] **A**fter this, in a maximum of 40 banking days, your new loan will be registered at the Real Estate Registry.
